

# Cox Campus Shine Your Light 2020

## Following the Science to Reach and Teach All Our Children

[Watch the video introduction here!](#)

This summer, the Atlanta Speech School's Cox Campus is offering each child the chance to be ready for school in the fall, and each teacher the chance to be prepared to meet them, reach them, and teach them. We ask every school and school district to look closely at their teaching methods and ask themselves if they are providing each and every child — regardless of race, ability, and socio-economic status — everything they need to chart the course of their future.

Cox Campus will be offering the unequivocal science to transform education, for free — so every child has the chance to read and learn deeply, to question, to contribute, and to make a difference in the lives of others — in short, to shine.

**Cox Campus' [Shine Your Light](#) is a FREE five-week program of activities dedicated to helping change the trajectory of educational equity in our country.**

### For families and educators B-5

#### Relationships

Engaging preschool teachers and child development professionals share expertise and structured class time focused on the science of talking with babies and building deep connections to build brains made for learning. With guidance for learning through home routines, LIVE webinars to go deeper and open Q&A, including preschool experiences and parent guidance for Spanish-speaking families.

### For families of children K-3rd

#### School Readiness

Inventive and entertaining educators lead children and families through a learning experience with social-emotional emphasis and focus on literacy instruction plus science, art, physical expression, math and more to ensure every child is ready for school on Day 1. Experiences follow the themes of emotions, identity, voice and community.

### For educators of children K-3rd

#### Teacher Readiness

Guidance on how to use evidence-based assessments to differentiate instruction and monitor progress. Science-based explicit instruction on literacy foundation. Socio-emotional experiences for whole-child engagement. Multifaceted, collaborative student artistic workshops.
